

Clayton County Public Schools

School Name: Kendrick Middle School

Year: 2022 - 2023

Mission Statement

The mission of the Kendrick Middle School Media program is to ensure that students and staff are effective users of ideas and information.

MEDIA PROGRAM PLAN

Rationale:

The Media program is an important support system for the county initiative to improve literacy and promote social emotional learning. Our services and collection support the curriculum, leisure reading, and social emotional learning.

Service Priorities:

(What services will you improve and how will improvement be measured?)

- Promote reading and collaborate with teachers to increase reading and reading levels in response to reading scores on MAP testing, as evidenced in instruction provided to classes, daily individual student instruction, promotions on our school website and social media, and circulation of the collection.
- Sponsor a reading bowl team, which will assist in promoting the importance of reading within our school. Collaborate with the students to promote books, especially the Georgia Book Award nominees. Circulation of the nominees, as well as the general collection will serve as an indicator of an increase in reading activity.
- Promote literacy events, through email, the news broadcast, school website, social media, and the Media Center bulletin board. Examples: public library programs, book festivals, author panels, reading challenges

Budget Priorities:

(How is your budget being spent and why?)

- Purchase security strips and other library supplies to process new books
- Provide online books to support the curriculum and leisure reading
- Provide print versions of popular and currently published titles to support the curriculum and leisure reading

Clayton Reads in Every Season Participation:

Check the media event(s) below your media program will commit to this school year:

FALL

- ☒ Public Library Card Sign-up Month
- ☐ International Literacy Day
