

KENDRICK ROAD MIDDLE SCHOOL

OWNER:
Clayton County Board of Education
Jonesboro GA

ARCHITECT:
Spangler & Manley
Griffin, GA

MEZZANINE SECTION THRU CLASSROOMS
SCALE: _____ NONE

MECHANICAL FEATURES:	ELECTRICAL FEATURES:
<ul style="list-style-type: none"> • Equipment Mezzanines: This feature provides ready access and serviceability of HVAC & electrical equipment. • Direct Digital Controls (DDC): This system allows off-site monitoring and control of temperatures and determination of equipment fault conditions • Energy Recovery: This system utilizes a total enthalpy wheel which pre-cools, pre-heats, dehumidifies or humidifies incoming outside air, thus reducing energy cost while complying with ASHRAE 62-89. • Water Source Heat Pumps: This system provides simultaneous heat or cooling and individual room temperature control year round. 	<ul style="list-style-type: none"> • Media Retrieval System: Media center includes 8 VCR's, 1 Laser Disk and in-house broadcasting system. Teachers can have direct control of a VCR or other system from their classroom by entering the appropriate code on their touch-tone handset/intercom station in their classroom. • Addressable Fire Alarm: LCD readout in office identifies specific devices that are in alarm or "trouble" mode. • Non-linear computer power panels: These panels have oversized neutral busses to accommodate third harmonic associated with computer power supplies. • Natural Gas Emergency Generator: This feature eliminates battery pack and Diesel fuel needs.
